BOOKBINDING MACHINE PARTS AND SUPPLIES

For more than 75 years "WHITE" hooks, needles and punches have been supplied to book manufacturers. The "WHITE" name has stood for quality at a fair price and with good service.

During the past 10 years we have expanded our line to include many replacement parts for bookbinding machines. This catalog illustrates those parts we manufacture so that you can know what we carry.

You will find that our company can serve you in the following three ways:

- (1) Supply EXCELLENT QUALITY products
- (2) Maintain LOWEST PRICES
- (3) Provide FAST DELIVERY (same day service)

We will be expanding our line of parts and supplies. Your valued comments and suggestions as to how we can improve our line, products, quality and service is always appreciated.

Yours truly,

Max Silberstein, President

The **WISS**® *Quality Story*

The name Wiss has been synonymous with fine quality shears and scissors since 1848. This position of eminence is unparalleled in the industry and has been achieved by maintaining a standard of manufacturing excellence that has made Wiss a household word in this country and throughout the free world.

The manufacture of Wiss shears and scissors begins with the finest quality cutlery steel and a knowledge of metallurgy achieved from years of testing and analyzing these products at every stage of manufacture.

The combination of this with dedication and experience of skilled craftsmen, is responsible for the cutting edge superiority that has established Wiss shears and scissors as the standard of excellence in the industry.

"KNIFE EDGE" SHEARS and SCISSORS

You may not ever need to cut a heavy rope with a pair of shears, but when a heavy duty cutting tool is needed you can be assured that Gold Seal "Knife Edge" Shears and Scissors will do the job!

Although we stress the importance of heavy duty cutting, the "Knife Edge" Shear performs equally well on thin and flimsy material.

SHARPENING Gold Seal 'KNIFE EDGE' SHEARS-SCISSORS

An important feature of GOLD SEAL KNIFE EDGE SHEARS and SCISSORS design is the ease of sharpening when necessary. Simply stone the sharp blade from the outside as shown in illustration with a fine stone. A razor sharp edge will result from this method in a matter of seconds. The opposite or backing blade does not require sharpening.

CERAMIC SHEAR HONES

#100N Triangular Hone 1/2" x 6" Long

#101N Round Hone 5/16" x 12" Long

These Ceramic Hones compliment the important feature, the ease of re-sharpening our knife edge shears and scissors. Simply stone the sharp blade from the outside as shown in the above illustrations. A razor sharp edge will result from this method

in a matter of seconds. Never stone the inside of blade. Do not drop. Can be cleaned if necessary with lighter fluid or kitchen cleansers. Great for knives too!

A-9	12 1/2"	3"	20 Gauge (.035")	1 lb. 10 oz.

Straight pattern snips are primarily for straight cuts, although they will cut wide curves when trimming light stock. The inside edge of the blade face is flat and tends to guide the tool along a straight line. This most traditional of all tinner's snips is still widely used in the plumbing, heating, air conditioning, and roofing trades, as well as being a nearly universal home handyman tool.

STOCK NO.	SIZE	LENGTH OF CUT	RECOMMENDED MAX. CAPACITY LOW CARBON COLD-ROLLED STEEL	WEIGHT EACH
M-3R Yellow Grips	9¾"	1½"	18 Gauge Steel (.049")	14 oz.

M-3R cuts straight (or wide curves left or right in light stock). Capacity: 18 gauge steel (.049"). Accomplishes most metal cutting requirements of the home craftsman.

MULTI-PURPOSE CUTTER

MPC-3

The MPC-3 is a home craftsman's cutting tool of countless uses. It is often used for many of the same jobs a layman traditionally has used his tinner's snip for, such as cutting screening and hardware cloth, light gauge sheet metal, synthetic shingles, tile, gutters and downspouts, carpeting, and much more. It boasts many of the labor saving features found in Metalmaster shears, such as compound action, serrated jaws, safety latch and yellow vinyl comfort grips.
