15x1SP: HAx1SP,HAx1KN

STRETCH & ELASTIC

This is a special version of 15x1 for *stretch* or elastic materials and tightly woven knits. It has a snake's head shape due to a bulged eye and slightly reduced blade above the eye. The bulged eye opens a slightly larger needle hole

and reduced blade above eye reduces contact between material and needle. Reduces needle heat-up and prevents skipped stitches.

Regular Point	sizes 11/75, 12/80, 14/90
PD/Perfect Durability	sizes 11/75PD, 12/80PD, 14/90PD
Ball Point	sizes 11/75BP, 12/80BP, 14/90BP
PD/Perfect Durability	sizes 11/75BPPD, 12/80BPPD, 14/90BPPD

15x1ST: HAx1ST, 705H-E

EMBROIDERY & METALLIC

This is a special version of 15x1 for embroidery and decorative stitching. It is made to higher standards for longer life. It has an oversized eye to reduce stress of tension on the thread. It also accomodates metallic threads or heavier top stitching threads and makes needle threading easier.

Regular Point	sizes 11/75, 12/80, 14/90
PD/Perfect Durability	sizes 11/75PD, 12/80PD, 14/90PD
Ball Point	sizes 11/75BP, 12/80BP, 14/90BP

HAX130EBBR:

for Automatic Self-Threading Machines

HAX130EBBR was specially made by Organ for Brother. Besides the oversized eye the significant feature has to do with tighter tolerances. The intended machine "self-threads" itself so tolerances must be very tight. The reinforced blade helps to achieve that goal. Brother wanted to offer these in 11/75 only but we had Organ make them in 9/65,10/70,12/80, & 14/90 in addition to the 11/75.

Available sizes 9/65, 10/70, 11/75, 12/80, 14/90

HLx5:

QUILTING & HEAVY DUTY

This needle is made for sewing hard, thick or heavy materials. It will sew through multiple ply applicatons like quilting, jeans, applique or heavy embroidery. It is actually an industrial needle with a flat shank. If you are bending or breaking 15x1's this needle could solve your problem. These hard chrome needles will outlast a standard 15x1 and the PD/titanium needles are even more wear-resistant. Color coded shanks identify sizes.

Regular Point	sizes 9/65,10/70,11/75,12/80,14/90,16/100,18/110,20/125

HAX130N:

TOP-STITCH & DECORATIVE STITCHING

This special needle has a very long eye, almost double length eye. It is made for **Top-Stitching** or **Decorative Stitching** and will accept heavy or multiple threads.

Can be used for embroidery and stitching with heavy and metallic threads.

Regular Point	sizes 10/70, 12/80, 14/90, 16/100
PD/Perfect Durability	sizes 10/70PD, 12/80PD, 14/90PD, 16/100PD
