

ORGAN® NEEDLES

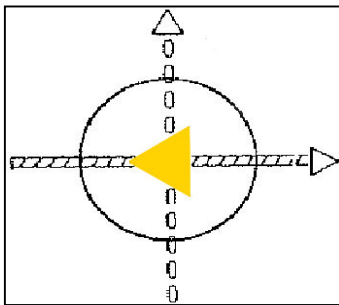

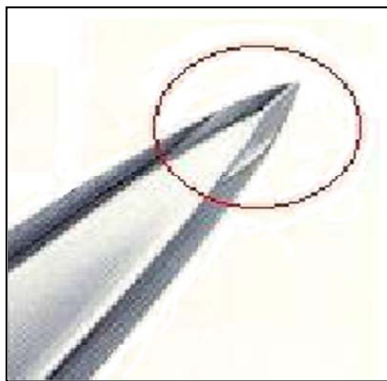

Quality, Economy, *FAST DELIVERY*...

"SD1" --- Round-Tri-Tip --- Cutting Point for Leather / Smaller Holes

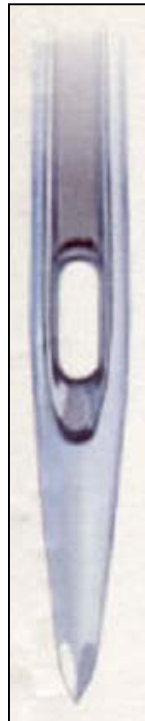

"SD1" needles have a round taper approaching the point, but at the very tip there is a small, triangle tip. The small, triangle tip cuts approximately 10% of the stitch hole.

"SD1" needles make a smaller incision than ordinary leather point needles.

"SD1" needles produce a neat stitch appearance, straight seam, and less needle deflection.
