

WOLF® PARTS AND SERVICE MANUAL **HOT KNIFE II**

- Temperature ranges – 650° to 750° F.
- Overall length only 10" (254 mm).
- Net weight only 1lb 2ozs (.511kgs).
- Blade diameter 3" (76.20mm).
- Comes standard with automatic timer and safety stand (not shown).
- Available in 110V or 220V, one phase, 50 or 60 cycles.

WARNING

This machine uses extremely high heat (650° to 750°F) for proper operation, always exercise care when handling or using it. Disconnect electrical connector when machine is unattended, when NOT in use, performing repairs, maintenance or cleaning. Remove all flammable materials and liquids from the work area. For operator safety the use of heat resistant gloves are recommended.

SERVICE INSTRUCTIONS

1. Allow unit to heat 10 minutes before using.
2. Never cut on an abrasive surface. A heat resistant material such as Silicon covered fiberglass cloth is the optimal cutting surface.
3. Do not use abrasives to clean wheel. Clean wheel when hot by rubbing on cotton cloth.
4. Order all parts by Part Number shown and provide voltage.
